## TEN-PAGE EDITION.

TUESDAY, : : JUNE 17. 1890.

THE Attorney General is esti mated to have spoken 27,000 words in his reply last week.

They say the same amount of lying might have been done in 13,700 words as well as in 27,000 if the orator had been up to his usual mark. We think however there was a great deal even for 27,000.

WE ARE authorized to state that all the vaccine virus used by the Board of Health and furnished the physicians in the employ of the Board, is the best quality of bovine virus, imported from the Lancaster County Vaccine Farm, Pennsyl vania, U.S. All statements and suggestions that the virus is of doubtful quality or possibly from persons tainted with leprosy, are absolute y destitute of foundation.

THE House lost itself Thursday in the labyrinths of a debate on the Bill to change the sittings of the Circuit court from Wailuku and Labaina to Wailuku alone. This is a Bill which is called for and bound to succeed eventually, as Noble Widemann said on the floor of the House. The question Thursday was purely on the question whether a bill coming from the Supreme Court should be treated with the ordinary courtesy extended to almost every measure, no matter how foolish. The National Reform party with a few honorable exceptions, voted that it should not.

Damon, Austin and Thurston, we fear that he and his reputation will pull through in an exceedingly bedragged condition.

#### ATTORNEY-GENERAL ASHFORD.

The Attorney-General says he is not enough of a hypecrite to condemn men who got up a revolution to get a place in the Cabinet, seeing that he got his place by the same means. The logic of this seems to be in the admission that he promoted the revolution in the hope of obtaining office, which is probably true enough but hardly harmonizes well with his role of defender of the laws against the wicked three.

The Attorney General expressed in the same breath a contempt for the Minister of the Interior and the mugwumps. This lays a finger on the heart of his grievance. He is unequally yoked together with a Magwamp, a man who says that the offices are for the public good and not for political beelers and henchmen. Think what a hideous position for a furious spoilsman bungry for "swag," to borrow the Attorney-General's own expressive language.

#### A LIVELY CORPSE.

The Attorney General started last week in the House by stating that he was now going to "slaughter" the Minister of the Interior.

The indications are that the Attorney-General will have the livhest corpse on his hands that he was ever called to officiate over.

#### THE CABINET.

The Bulletin in an editorial of not being able to agree, ought to step out and give place to a Cabinet which can. If this were the view Cabinet the subject of inquiry. #### KCHALA FEMALE SEMINARY.

The Kohala Seminary closed its first year (the first after an interregnum of seven years) on the 15th inst. with some very interesting ex-

The room had been tastefully decorated with a variety of flags and festoons of braided ferns and flowers, entirely the work of the girls under the direction of the teachers. The pupils, numbering twenty-two, and ranging in ages from 6 to 15, were neatly attired in white.

The exercises consisted in the singing of songs, blackboard exercises in arithmetic, and geometrical drawing, calisthenics, declamations and dialogues. Specimens of drawings of maps, geometrical figures, decorative designs and perspective also adorned the blackboards; and others of a like nature on paper, some of them being original designs or sketches from objects, were passed about the room for inspection. These all showed a remarkable degree of taste and proficiency in execution.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simia, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. Dear Sir.—We embrace this opportunity of congratulating you upon the wide-spread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has carned for itself not only in Hindosian, but all over the East. As a renedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-indian home. The other branca, we are sorry to say, are now relegated to the native bazsars, and judging from their sale, we fancy their sojourn there will be but evanescent. We could muittply instances ad infinitum of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhosa and Dysentery. Spasms, Cramps, Neuralgis, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Cholerate Diarrhosa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidely the best, and also from a sense of duty we owe to the profession Conviction that it is decidely the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of faith on the part
